

## Guild Plans Challenge Trunk Show (Baxter Bulletin 2/3/23)

Long-time Hill 'N Hollow Guild member Betty Pulver has entered every guild challenge since the organization's founding. She made this temperature quilt — in which each small "yo-yo" represents the high or low temperature for each day of 1962 in Wichita, KS — in response to the 2020 challenge. The guild sponsors a challenge each year, encouraging members to expand their skills and flex their creativity to interpret a theme, use a specific fabric or technique or explore a quilt block pattern. Pulver will display her challenge pieces, explaining her inspiration and techniques, at the next guild meeting, which will be at 9:30 a.m. Friday, Feb. 10, at The Christian Church of Mountain Home, 1365 Eastside Ct., Mountain Home. Other guild members will also share their responses to guild challenges, and the 2023 challenge will be revealed.
